

Real Claims, Real Losses

- Arcing damaged the main electrical distribution panel. Breakers blew and bus bars, wiring, and insulation melted. Food was contaminated with smoke. A generator was rented to provide partial power during the three-week repair.
Total Loss: \$170,909

- A packaging plant's refrigerated egg storage tank was damaged during the cleaning process, causing the tank to implode. The entire unit needed to be replaced.
Total Loss: \$72,778

Hanover Food Manufacturers Advantage

Why Food Manufacturers need Equipment Breakdown coverage.

Food canning and packaging operations depend on boilers, pressure vessels, computer-controlled mixing devices, and electrical systems. This equipment is subject to sudden and accidental breakdown. A breakdown is not only expensive to repair, but it can also cause business interruption, which can translate to lost revenue and customers.

Protect Against Loss

Our Equipment Breakdown coverage protects against covered losses caused by:

- Short Circuit
- Electrical Arcing
- Power Surges
- Mechanical Breakdown
- Motor Burnout
- Boiler Damage

Equipment Covered

- Boilers and Pressure Vessels
- Electrical Distribution System
- Electronics
- Refrigeration

Coverage, Plus More

Many states and local governments require boilers and pressure vessels to be inspected periodically by commissioned inspectors. We include these inspection services so you avoid local fees in many jurisdictions and only pay the certificate fee.
